## AN URGENT MESSAGE TO: WE THE PEOPLE

17 MAY 2026

### WE THE PEOPLE,

To the point!

***WE THE PEOPLE ARE AT WAR! OUR COUNTRY IS AT WAR*** on several fronts, and all fronts have a common enemy:

donald john trump

tr@itor in chief, convicted f@lon, sexu@l @ss@ulter, and,  
as likely as not, p@doph!le

Certainly, some of you do not realize that We the People are at war! There are others who will cover their eyes to the fact that We the People are at war! Some only perceive war in terms of bullets and bombs and cannot, therefore, conceive of the notion that We the People are, in fact, at war! The enemy we face is not a large contingent. In fact, they are a very small subset of We the People, making up less than 5% of the overall population. But they are very well financed with the money they have appropriated from the 95% majority of We the People, so much so that this small 5% subset of individuals has more money than the entire 95% of the rest of We the People. They do not share our values. We must claim that 5% subset because they are family. They are like the family's murderer. The thief. The whore. The addict. The con artist. The rapist. The pedophile. The marital cheater. The bank robber. You know, those people in the family you do not want to acknowledge when company comes over and asks about your father, mother, sister, brother, uncle, aunt, or kissing cousin because you are ashamed that they raped that

little girl; shoved the old blind man off the platform onto the subway tracks; shot the dog; slept with roadkill; were convicted of dozens of counts of fraud; sexually assaulted a woman in a department store; or wanted you to celebrate his wife for stretching out half-naked across the wing of his airplane while trying to join the mile-high club and having just enough brain cells to figure out how to fellatio her way to citizenship. Or the ones who betrayed everything they claimed to stand for last year, last month, last week, YESTERDAY! only to get on both knees and ask their master how he wants to do it to them today. This is the 5% subset that has no shame, no morals, no compassion, no truth, no spiritual discernment, and whose leader has made clear that he and his backers do not care about a single one of the 95% of We the People!

We would like not to claim them, but they are a part of us. They are the part of us that seized control through lies, deception, and their understanding of the laws they are steadily attempting to use to stop as many of We the People as they can from reading and waking up so that each of us knows the truth for ourselves. Their intent: to make America exactly what the founders of this country fled from when they escaped the King of England.

They are counting on the structures they have been putting in place for over sixty years: find a segment of We the People to blame for their perceived slights, turn We the People against each other, divert our attention so that we keep our eyes off them, burn the books, and hand out versions that support their agenda. Keep We the People feeling hopeless, dejected, off-balance, lost, angry, afraid, and asleep.

I am here to tell We the People, both the 95% majority and the 5% subset, that the 5% are wrong! We the People, that 95% majority, still have the power to make change, but it is slipping fast. We must act now!

trump and his subset have declared war on the Constitution of the United States itself! Without declaring it, they have engaged America in Civil War II. We must understand that, in this new civil war, they are attacking as many of the foundations of America as they can destroy so that they can erect monuments to themselves. They want the trappings of power to justify their actions and the new order of citizenship they desire for haves and have-nots, rich and poor, lords and serfs. They will, undoubtedly, rail against the term “we are at war” and try to use it as a

threat. Thomas Jefferson, in his 1787 letter to William Smith, explicitly approved of armed rebellion against a government that has become as corrupt as the regime that the trump administration is, declaring, “The tree of liberty must be refreshed from time to time with the blood of patriots [We the 95% of the People] and tyrants [the 5% subset].” But let me be clear: we are not yet at the point where the kind of insurrection that trump attempted when he lost his re-election bid is necessary. Not yet! Though trump is doing all he can to push We the People there.

The first thing to understand is that it is the billionaires, the legislators of the House of Representatives and the Senate, and the crooked justices of the Supreme Court of the United States who have given, and are giving, trump the ability to do what he is doing. We must first understand the hierarchy of m@g@, and believe me when I tell you, it is not what it appears to be on its face.

Those of you who watched Game of Thrones (“GOT”) will fully understand and appreciate the analogy that follows. trump is “Viserion,” the dragon who was killed by the Night King and converted to the dead. Putin slew trump a long time ago, and trump has been increasingly doing his bidding ever since. The cabal that is actually in charge is perfectly content to let trump traipse around breathing and snorting his weird-colored fire because We the People have never seen racism and fascism this unhinged. Some heard about it through tales of slavery but listened in disbelief. Some lived it through Jim Crow and the convict lease system, but they are no longer with us. Some of us are still here from the 1950s, 1960s, 1970s, and 1980s and are trying to wrap our minds around how we ended up here again. It was not hard, but that is a topic for later. Trump and his cabal are showing the world just how real it all was and how real it is becoming again. GOT may be just as prophetic as Jimmy Kimmel was about trump’s faked assassination attempt. The aptly named “White” Walkers are the ones in charge. There are about forty of them, but the key ones are as follows: Harlan Crow, Stephen Miller, Susie Wiles, Steve Witkoff, Lara Trump, Dana White, Linda McMahon, Howard Lutnick, Boris Epshteyn, Richard Grenell, Elon Musk, Brooke Rollins, James Blair, Taylor Budowich, Vince Haley, Keith Kellogg, Sergio Gor, Jason Miller, Chris LaCivita, Alex Latcham, Alex Bruesewitz, Mike Davis, and the biggest Israeli supporting him, Miriam Adelson.

**AN URGENT NOTICE TO: WE THE PEOPLE**

Knowing who they are, We the People need to become, both individually and collectively, Arya Financial Assassins! We must deny them their addiction, that which they crave the most, and the only color to which they bow: MONEY!

There are many places on the internet that will recount the problems to you, but here, at The People's Mic, we will present solutions—actions that can be taken individually and collectively that are completely legal, highly effective, and able to bring financial consequences to billionaires sooner rather than later. Let us begin.

As is widely known, Spirit Airlines went out of business because of the escalating fuel prices caused by trump's "cover-up, look over here" Epstein War. Here is the reality: We the People can bankrupt any airline we choose by collectively deciding that we will not fly that particular airline. There is no law that requires us to fly a particular airline. There is no law that can tell us where we have to spend our money. We the People can simply say, "I refuse to fly a particular airline until they widen the seats, stop ripping us off on baggage charges while losing our baggage, and return to the times when we were treated like humans, not sardines." As with the Montgomery Bus Boycott, sparked by the arrest of Rosa Parks, which lasted 381 days and ended segregated seating on buses, the American Air Atrophy can bring any airline that We the People choose to an ultimate cessation of existence. Regardless of the airline chosen, it will begin dipping into its coffers by week three and hemorrhaging cash by the second month.

We the People have become conditioned to "hurry up." We the People must embrace a new philosophy: "SLOW THE trump DOWN!" We are accustomed to taking every mph above the posted speed limit that the law will allow. It is time to embark on a better way: "SLOW THE trump DOWN!" If the posted speed limit is 60 mph, do 50. When a light turns green, look both ways and make sure no one is in the process of running the light through cross-traffic. Then ease ... gently ... on the gas and proceed ever so safely through the intersection, making abundantly sure that you and all other drivers are safe. It may not seem like a lot, but just as they have algorithms that calculate how much work a particular number of employees will accomplish while doing a particular job, they will begin calculating how much money they are not getting because that

**AN URGENT NOTICE TO: WE THE PEOPLE**

95% of We the People has SLOWED THE trump DOWN! And, with all of We the People participating, the effect will begin to be calculated in days, not weeks.

Ground transportation, and the likes of Jeff Bezos's Amazon, FedEx, UPS, freight yards, and distribution warehouses, are likewise susceptible.

The People's Mic will begin providing methods for communities to come together in order to buy food directly from local farmers and bypass chain grocery stores, like Walmart, Kroger, Vons, etc. We the People have to remember the billionaires who have decided to back trump in his attacks on us and hold these billionaires and investment houses accountable.

We the People must be mindful that, while we are anticipating and banking on the midterm elections, trump and his cabal are equally aware of the midterms and the fact that they cannot win fairly. There has never been any appreciable cheating in voting in America, but trump is about to try, and he knows that SCOTUS is going to help, especially Harlan Crow's personal pet and black Labrador fetchiever. He intends to challenge it in the courts and have SCOTUS place holds on the election in order to give himself and his cabal time to further enact and engage in their plan. He is going to send out his Gestapo to harass and intimidate. We cannot afford to wait for the midterms to prepare; we must defend now.

Sincerely,
